Hey Margaret.....glad to see your back from your maternity leave! We were coordinating with Dan on this last Friday and the field work is a go to start on 9/8/2019. We will be getting the RFPs out this week for the radon canister deployment and drilling services. Ben Nwosu is the lead for this project on our end. If you need any further information please let me know.

Thanks,

Tim

** External Email **

Hi Tim,

Our counsel wants to confirm the sampling start date for Canadium Radium, but Dan Gaughan is out this week and I'm not sure who's the lead with RST. Would you be able to find out and confirm the start date for Sunday, September 8th?

Hope all is well!

Subject: FW: Cannistra

Hi Margaret,

Welcome back! I hope the transition back to the office has been a smooth one.

Did Dan brief you on what is happening in the Cannistra/Canadian Radium matter? Attached are the terms of access that we agreed to at a settlement conference in July. We will be beginning work on a Sunday with Cannistra paying overtime costs, and otherwise ordering the sampling work in accordance with Cannistra's preferences (which is not really a concession on our part; we would have agreed to this earlier if Cannistra had raised it).

Cannistra is awaiting word from us on a start date for the mobilization. On Friday, Dan said he would be speaking with Weston to confirm Sept. 8 as a start date. He did not get back to me before he left for vacation. Is there someone handling Dan's case while he is away? I would like to determine whether Weston is moving forward with preparations for September 8 so that we can notify Cannistra.

Thanks,
Margo
